EDUCATION

Vanderbilt University

Nashville, TN

Bachelor of Science in Mathematics, Concentration in Data Science (GPA: 3.625) Aug. 2020 – May 2023

- Minors in Data Science, Scientific Computing, and Psychology
- Data Structures and Algorithm, Problem Solving with Python, Numerical Analysis, Computational Neuroscience, Probability and Statistics, Differential Equations, Linear Algebra, Linear Optimization
- Honors/Awards: Dean's List (Since December 2020)

Columbia University

New York, NY

Full Stack Coding Boot Camp

Aug. 2018 – April 2019

Stuyvesant High School

New York, NY

Honors Regents Diploma with Advanced Mastery in Math and Science

Sept. 2014 – June 2018

EXPERIENCE

Winter Data Science Intern

Dec. 2020 – Jan. 2021

Boston Consulting Group (BCG)

(Remote)

- Cleaned and conducted exploratory data analysis on datasets from PowerCo to detect churn patterns.
- Evaluated several churn models using Python to calculate and optimize business impact of discounts.

Data Analyst Intern

July 2020 – Aug. 2020

KPMG

(Remote)

- Organized and analyzed bicycle purchase datasets on Excel to see trends across varying demographics.
- Utilized data visualization through Tableau to effectively present which demographics to target advertisements.

Mathematics Tutor

Sept. 2019 – June 2020

America Reads and Counts Challenge (ARCC)

New York, NY

- Coordinated and expounded an arithmetic curriculum at an elementary school in small group discussions.

Research Volunteer

July 2016 – Sept. 2016

Mount Sinai Hospital

New York, NY

- Apprenticed a group of cardiovascular doctors researching hyper pulmonary tension in rats and observed methods of data collection.

PROJECTS

Random Walk Down Wall Street | *Python, HTML, CSS, Bootstrap*

July 2020 – Aug. 2020

- Developed a full-stack web application that displays analysis and comparisons of stocks that users can select.
- Collected datasets for the Python tool that projects correlation between different stocks.

Copy Paste Replace | *HTML, CSS, Javascript*

March 2019 – April 2019

- Created the front end of a tool that replicates Madlibs with custom texts and outputs related animated images.
- Connected GIPHY API in sending key information and returning GIFs.

TECHNICAL SKILLS

Languages: Python, SQL (Postgres), JavaScript, HTML/CSS

Libraries: pandas, NumPy, Matplotlib, scikit-learn, tensorflow/keras

Data Visualization: Tableau, Excel
